

ALERT

Active Learning Experiences in Research and Thinking
Nixa Public Schools' Program for the Academically Gifted

GOALS

The goal of Nixa Public Schools Gifted Education Program is to identify academically gifted students and provide them with a multidisciplinary, differentiated learning environment that will allow them to develop to their full potential. Students who are in the program will

- be provided a learning environment that will develop their thinking, creativity, and reasoning abilities, as well as their decision making and communication skills.
- become more independent and self-directed learners.
- participate in challenging learning experiences that are not included in the regular classroom curriculum.
- participate in growth and social development activities; learning to recognize and respond to the strengths and needs of themselves and others.
- be provided opportunities to come together to challenge each other and to encounter other students with similar skills and talents.
